THE HOME OF QUALITY SHEDS

Established in 1975, Garden Master continues to manufacture quality storage solutions in South Australia. Our products include sheds, aviaries, shade houses and hot houses. The versatile design of our products allow door positions, windows and other options to be altered to suit your storage requirements.

MADE IN SOUTH AUSTRALIA

Garden Master is proudly a 100% South Australian owned company. Our Mission at Garden Master is to purchase as much of our materials as possible from other South Australian companies. When you buy a Garden Master product, you are supporting a number of local businesses across the state.

THICKER + STRONGER

Our products use deep ribbed, up to 0.4mm gauge, high tensile ZINCALUME® or COLORBOND® steel sheeting and heavy gauge channel section. ACERWALL™ sheeting is up to 25% stronger than most other brands. We pride ourselves on providing high quality products by using the best materials possible.

QUICK + EASY ASSEMBLY

Pre-finished panels make our products simple to install. We do as much as possible in the factory to make your job simpler and to save you time. However, we do provide installation services in metropolitan areas if you prefer.

DELIVERY + INSTALLATION AVAILABLE

Delivery and/or installation can be arranged in Adelaide metro areas. Freight may apply in some regions - see page 27 for more info. Please note that delivery is to your front yard/driveway, with all prices based on a level site with reasonable access.

EXD SUPPORT SYSTEM

The EXD Support System means that the shed doors are double braced with Galvanised SHS (Square Hollow Section) for extra security, strength and durability.

MODERN + VERSATILE RANGE

We have many styles and options available to suit your needs. See pages 13 and for additional shed extras that we provide. We are confident that we can provide a shed to suit your situation. Custom sheds are also available - please enquire.

20 YEAR GUARANTEE

We want you to have peace of mind in your investment. That's why all Garden Master structures are covered by our 20 Year Structural Guarantee. Some individual items are covered by separate warranties.

SHEDS : FLAT ROOF

COMPACT STORAGE SHEDS

- Great for tight spaces
- Wall height 1.83m
- Minimal roof angle, sloped front-to-back or back-to-front during installation
- Supplied in 5 panels with much of the assembly already completed
- Includes tech screws, gloves and installation instructions
- Roof overhang from 65mm to 235mm
- Various door options available see page 13
- T-Bar Handle standard
- Increase wall height to 1.96m or 2.09m
- Install yourself or we can do it for you

DIMENSIONS	WALL HEIGHT	CODE	PRICE	INSTALL*

SHADE HOUSE : GABLE ROOF

GABLE SHADE HOUSE

- Standard wall height 1.83m
- Supplied in 6-10 pre-assembled panels (depending on size) with much of the assembly already completed
- Larger shade houses are supplied with a galvanised truss
- Horticulture-grade shade cloth has a 70% sunblock factor to provide a cool environment, maintain moisture and reduce weeds and insects. Comes in colour green as standard, other colours available on request.
- Shade cloth is fade resistant, UV stabilised and reinforced at the edges to resist fraying and tearing.
- Doors have square hollow tube inserts to provide additional strength
- T-bar handle as standard
- Door position is customisable

- Custom sizes available
- Colour trim available
- Tiered plant stands to suit available

AVIARY : GABLE ROOF

GABLE AVIARY

- Wall height 1.83m
- Bird proofing is supplied with all aviaries and is used to seal the gap between the top of the wall and the sheeting
- Supplied in 5 pre-assembled panels
- Doors:
 - 1.2m high - ½ mesh and ½ sheeting to match dado under all mesh sections
 - There are two tube inserts in each side of the door to give effective bracing without obstructing viewing
 - All doors are fitted with a pad-bolt and an extra safety catch for use when inside the aviary
- Dividers:
 - These can be used to divide an aviary into any number of compartments
 - Doors can be in the divider or outside walls to give required access
 - Dividers normally match the end walls for sheet, mesh and dado
- The following options are available:
 - Hinged hatch
 - Mesh in roof
 - Mesh to ground
 - Full height doors
 - Parrot mesh 25 x 25 2mm thick
 - Easy feed rotating feeders
 - Coloured trim
- See page 22 for customisation options, accessories and Aviary configurations

- ^Skylight placed in a Gable roof shed, covers 1 sheet widths from ridge to wall, on one side.
- #Timber Flooring up to 3m x 3m with C Section galvanised.

GARDEN MASTER
— THE HOME OF QUALITY SHEDS —

Why choose a Garden Master Shed?

- 1 We are proudly 100% Australian owned and manufactured.
- 2 Garden Master uses only premium Australian COLORBOND® steel 0.35mm BMT supplied by BlueScope.
- 3 We offer a 20 year Structural Warranty as standard for N2 Wind Rating, N3 Wind Rating is available for Coastal areas.
- 4 Our sheds are available in a range of COLORBOND® steel colours to suit your style.
- 5 We use 0.55mm BMT heavy-duty trim as standard, to provide extra strength to the panels and ensure your shed can handle anything you throw at it, or in it. Available in Galvanised steel or matching COLORBOND® steel colour.
- 6 Our shed doors are reinforced, meaning they are more durable and there is no need for cross bracing.
- 7 T-Bar handle as standard on all sheds, for easy and secure latching every time.
- 8 We offer a range of standard wall heights: 1.83m, 1.96m, 2.09m custom wall heights are available on request.
- 9 Custom shed sizes are available to suit your needs.

*Available on request
